# Who We Are...

*We are a family business of three generations,  
we know how important weddings are!*

*We believe we are a small enough business to give  
you the care and attention you require, but large  
enough to supply up and down the country!*

*We only use traditional and natural growing  
methods. We sell many old, tried and tested  
varieties as well as the best of the new. We grow  
and enjoy them too which means that we can offer  
any advise you should need along the way, even if  
that's right from the planning stage!*

*We can supply ...*

*Fruit & Nut Trees, Soft Fruit, Grape Vines,  
Exotic Plants,*

*Vegetable & Herb Plants or Seeds  
(especially tomatoes and chillies!),*

*Companion Plant Seeds, Edible Flowers,  
Ornamental Plants, Fuchsia Plants, Water Plants,  
Hedging Plants*

[www.victoriananursery.co.uk](http://www.victoriananursery.co.uk)

There's nothing like a beautiful garden to make you feel good, whether you prefer a simply garden that will look after itself or one that requires a little more attention.

You can grow pretty flowers, edible vegetables, delicious fruit, flavoursome herbs, protective hedging or maybe something else!

Don't worry if you don't know how, we can offer full guidance and be at the end of an email or telephone for anything you buy from us. What we sell we grow too, so if it's a bad or difficult year, we'll know that. If you live in a particularly exposed area or a sun trap? We can advise what will grow best!

Help is always at hand!

For those who are just starting out in married life, gardening is excellent. It is great fun and good exercise (even gives you a sun tan but don't forget to use the cream!).

If you grow your own food or flowers it will save you money too, but most importantly it's something you can do together.

Gardening is very therapeutic too, so if you've had a hard week it can really help you to relax and relieve any tension.

Growing your own food is also very rewarding in the kitchen and makes an excellent topic of conversation when you have guests as well as tasting so much better than shop bought veg.

Go on give it a go...
